## OPEN DAY 27TH OCTOBER 2023

Our charity provides inclusive and person-centered, work based activities for adults with learning disabilities, autism, epilepsy, and other complex needs in various settings.

### OUR DAY OPPORTUNITIES ARE:

- Person centred...
- Building empathy and connection to create a sense of belonging.
- Nurturing unique relationships to make every day count.
- We dream big... harnessing imagination, generating confidence in the people we support to take the first step.
- We are committed to working in ways that take us to new places in partnership and side by side with the people we support.
- We are responsive to whatever comes our way, by moving forward together.
